Crane Valley where the school is now. The house was built in 1903 by Lewt Angell who had a 25 year lease on the land, taking in a good part of where Bass Lake now is. Denver Church bought the lease in 1904 and after living there two years that became his summer home until 1928.

This picture was taken in 1919. The flowering quince was planted by my Mother soon after we moved there also the apple trees, etc.

I dont need this back for I had a print made.

Sincerely
Edrie Church Turner
